# A NEW ERA

## A new era of subsidence claims management efficiency and customer service

Our digital business model, driven by our extensive knowledge and deep domain experience, utilises our multi-award-winning digital claims technology to deliver first-in-class remedial claims management for clients and their customers.

# COMPLETELY DIGITISED

A completely digitised subsidence claims process  
with every party knitted together in sync

Our exclusive industry-leading geo-technical expertise,  
combined with our site investigation and soils laboratory,  
enables us to carry out the correct investigation, mitigation,  
and repair.

# THE FUTURE

Automated updates, Instant visibility, Supply chain orchestration, Automated workflow and livestream video with 3D immersive LiDAR

The future of digital subsidence claims has arrived

SEAMLESS

A seamless and transparent claims journey  
that slashes operational costs

An abstract digital environment featuring a dark, textured foreground. In the background, several rectangular blocks of various colors (blue, orange, yellow, red, purple) are arranged in a grid-like pattern, some of which are illuminated from within, creating a vibrant, multi-colored glow. The overall atmosphere is futuristic and high-tech.

# THE NEXT STEP

360Globalnet is the next step in your digital  
claims journey

IT'S TIME TO PUT YOUR  
CUSTOMERS FIRST
